

# Quality Policy

---

**Innovate Recycle is focused on the efficient extraction of high quality materials through innovative process, allowing these valuable commodities to be repurposed across a range of industries. To enable this vision, quality must be at the center of our planning, design and operation**

## **Our commitment is to:**

- Effectively and efficiently extract materials from carpet, allowing re-use of these valuable commodities
- Produce these materials to a consistent designated standard through our bespoke process
- Continually improve the effectiveness of both the quality management system and the provision of our all services and products
- Ensure a robust management system is created to support the initiation of our process to a high level of repeatable performance
- Ensure all staff are trained and briefed about all the quality documentation so that they can implement the policies and procedures in their work;
- Comply with all relevant legislation

## **To meet our commitments, we will:**

- Establish, implement and then maintaining a quality management system aligned to BS EN ISO 9001
- Identify and measure quality-based objectives within our process, ensuring these are met
- Ensure the required resources, training and communication are provided to those responsible for our processes
- Ensure a regular review of our management system, ensuring opportunities for continued improvement are identified and actioned upon
- Ensure that our products are supplied in accordance with our customers' requirements and specifications
